

## Midland Scientific is taking all necessary precautions to keep our FELC & Sales Meeting attendees safe.

### Non-Contact Thermometers will be available for use.

As more health measures become available, we will research their implementation. Anyone with an elevated temperature or fever will not be allowed into the event.

### Masks will be required for attendees and staff at a minimum. Surgical or cloth masks will be provided for any attendee or staff who wants one.

We ask that everyone bring their own masks. We will provide masks for those who don't have one.

### Social Distancing and no physical contact.

We ask that all attendees do not shake hands, fist bump, or hug. Please practice social distancing at all events.

### Hand sanitizer stations will be available throughout the event.

We will provide everyone with their own hand sanitizer and have stations available.

### Larger aisle ways with dedicated travel lanes in the trade show and appointment areas help manage traffic.

This will keep attendees from bumping into each other or crowding in certain areas on the floor.

### Sessions will be set up to allow for 6' space between tables.

The floor and other spaces will also have 6' space markers for attendees to follow so they know an acceptable amount of space to leave in between each other.

### F&B will be provided in a no-contact way.

We are working with Embassy Suites to find the safest way to distribute food & beverage during the event.

---

### MSI has always strived to be as eco-friendly and sustainable as possible.

We know that these precautions make our event less environmentally sound as we'd like, but during this time the safety of our attendees takes precedence. We hope you will understand.

---

### Are we still going to do social events?

We still plan to have a FELC Social Event and Happy Hour. These will be held at the hotel onsite to reduce exposure to other environments.
